

MONSTER SPORT COMPLETE CAR LANCER EVO X 360spec

**Full range computer set [JDM only]
[Trade-in] ¥95,000**

The best mapping was created over the entire range at each point (fuel and ignition timing). This is developed in the same process as top category racing vehicles such as found racing in F1, WRC cars, and GT cars. Tuning computers currently sold in the market use only pin point maps to which the mapping is done by engine running only.

**PFX300 intake kit
+ Carbon intake shroud
¥75,000**

This kit combines the carbon shroud assembly (3PMA50) with the PFX300 intake kit (3PBP20). By combining the two, fresh air can be taken into the air cleaner box more efficiently than it otherwise would be if the components are used separately.
